Author Index Volume 15 (1989)

(The issue number appears in parentheses before the page numbers.)

Agosti, M., F. Cretsani and G. Gradenigo, Towards data modelling in information retrieval (6) 307–319
Armstrong, J.S., Readability and prestige in scientific journals (*Brief Communication*) (2) 123–124
Artymiuk, P.J., D.W. Rice, E.M. Mitchell and P. Willett, Searching techniques for databases of protein secondary structures (4/5) 287–298

Bawden, D., *see* **S.J. Wade** (4/5) 249–260
Beauclair, R.A., An experimental study of GDSS support application effectiveness (6) 321–332
Berrie, A.T., *see* **F.E. Wood** (4/5) 269–276
Breadmore, C.M., *see* **T. Whitehall** (3) 135–148
Brookes, B.C., Personal transferable skills for the modern information professional (*Brief Communication*) (2) 115–117
Butcher, D.R., *see* **J.E. Rowley** (2) 109–114
Butters, A.J., *see* **T. Whitehall** (3) 135–148

Chartron, G., Lexicon management tools for large textual databases: the Lexinet system (6) 339–344
Chen, H.-M., *see* **M.-Y. Tarng** (6) 355–359
Chen, Y.-S., Organizational strategies for decision support and expert systems (1) 27– 34
Cotton, R., Presentation of manpower education and training research projects (*Brief Communication*) (2) 119–122
Cretsani, F., *see* **M. Agosti** (6) 307–319
Cringean, J.K. and M.F. Lynch, Subgraphs of reduced chemical graphs as screens for substructure searching of specific chemical structures (4/5) 211–222
Cronin, B. and L. Davenport, Profiling the professors (1) 13– 20
Cronin, B., *see* **J. Licea de Arenas** (6) 333–338
Cronin, B., *see* **L. Davenport** (6) 369–372
Currás, E., Guest Editorial: The industry of knowledge (1) 1

Davenport, L. and B. Cronin, What does hypertext offer the information scientist? (*Brief Communication*) (6) 369–372
Davenport, L., *see* **B. Cronin** (1) 13– 20

Eisenschitz, T.S., Copyright laws and online (*Brief Communication*) (1) 49– 53
Ellis, D., A behavioural model for information retrieval system design (4/5) 237–247

Ford, N., From information- to knowledge-management: the role of rule induction and neural net machine learning techniques in knowledge generation (4/5) 299–304

Gradenigo, G., *see* **M.Agosti** (6) 307–319
Griffiths, A., SAGIS: a proposal for a Sardinian Geographical Information System and an assessment of alternative implementation strategies (4/5) 261–267

Haythornthwaite, J., 1992 and the information specialist (*Brief Communication*) (6) 365–368

Iselin, E., The impact of information diversity on information overload effects in unstructured managerial decision making (3) 163–173

Kleyle, R. and A. de Korvin, A unified model for data acquisition and decision making (3) 149–161
Korvin, A. de, *see* **R. Kleyle** (3) 149–161

Licea de Arenas, J. and B. Cronin, The contribution of higher education institutions to the development of the Mexican health sciences base (6) 333–338
Losee, Jr., R.M., Minimizing information overload: the ranking of electronic messages (3) 179–189
Loughridge, B., Information technology, the humanities and the library (4/5) 277–286
Lynch, M.F., *see* **J.K. Cringean** (4/5) 211–222

McMurdo, G., Filofax, personal organizers and information society (*Brief Communication*) (6) 361–364
Mitchell, E.M., *see* **P.J. Artymiuk** (4/5) 287–298
Moed, H.F. and M. Vriens, Possible inaccuracies occurring in citation analysis (2) 95–107
Moore, N., Developing the use of a neglected resource: the growth of information management (2) 67– 70
Moulton, S., The UK Data Protection Act 1984 (*Brief Communication*) (1) 55– 56

Nazim Ali, S., Science and technology transfer in developing countries: some problems and suggestions (2) 81– 93
Neill, S.D., The information analyst as a quality filter in the scientific communication process (1) 3– 13
Nieuwenhuyzen, P., Journal citation measures: taking into account their fluctuations from year to year (*Brief Communication*) (3) 175–178
